Coimbatore, TamilNadu

PROFESSIONAL SUMMARY

A passionate and results-driven web developer with hands-on experience in full stack web development. Skilled in designing, developing, and optimizing scalable applications using the MERN stack. Adept at problem-solving, debugging, and collaborating with cross-functional teams to deliver high-quality software solutions.

KEY PROJECTS

AI-Powered Content Moderation

- 📅 2025 📍 Coimbatore, India
- Developed a real-time AI moderation platform using the MERN stack and Google Cloud AI services.
 - Built image, text, and video filtering models using Google Cloud services to blur and remove inappropriate content.

Expense Management System

- 📅 2024 📍 Coimbatore, India
- Created a full-stack expense tracking web application with secure user authentication.
 - Integrated data management and user authentication to securely manage financial transactions.

Parkinson's Disease Prediction

- 📅 2023 📍 Coimbatore, India
- Developed an AI-powered diagnostic tool using Python and ML models.
 - Built a web-based prediction system allowing users to input medical data and receive instant results.

PROFESSIONAL EXPERIENCE

Frontend Developer Intern

[Senthuron Tech](#) 📅 06/2024 - 12/2024 📍 Coimbatore, India

- Responsible for developing and implementing web applications
- Developed user-centric web applications using React.js and Next.js with responsive UI/UX designs.
 - Learned UI animations with GSAP, improving user engagement and responsiveness.
 - Integrated seamless navigation and optimized the user experience with a clean, professional layout.
 - Consistently met project deadlines and received a commendation for dedication and focus.

KEY ACHIEVEMENTS

- 
- Techgium Finalists**
- Techgium AI Challenge for AI-Powered Content Moderation. Recognized for developing an AI-driven content moderation system using Google Cloud and MERN stack, capable of filtering inappropriate text, images, and videos in real-time.
